- Large paper roll and journal options available.
- Ready to configure into whatever system you're using.
- Standard 1-year warranty.

ithaca[®]
a product of TRANSACT

Meet the Ithaca® Series 70 impact printer. The Series 70 takes the gamble out of consistent, quality impact printing for video lottery, poker, keno, and other unattended printing applications. Confidence in a printer's paper delivery system is the name of the game, and the Series 70 delivers receipts, tickets and coupons at 4.9 lines per second with solid consistency. It features enhanced or emphasized font styles for greater legibility, and utilizes Oki® technology, known worldwide for quality, reliability and a snap-in/snap-out, user-friendly ribbon cassette. The Series 70 even has a convenient "Paper Low" indicator to alert you before the paper roll runs out. Options include a paper transport mechanism to ensure smooth delivery, and a large 6-inch diameter paper roll for fewer paper roll changes. Plus a standard 1-year warranty with extended maintenance options. And, of course, the Series 70 is backed by our solid reputation for quality and reliability.
