Pine
Sandalwood
Tea Tree

Themed & Other

Acrid Rubbish
Burnt Rubber
Engine Oil
Wood Smoke

Difficult Scents: Scents of food, produced during the cooking process e.g. bacon, sausages, bread etc.

Flavors: Food product flavorings are in theory possible to print with. The client would need to supply us with their flavour in an *oil soluble liquid format*. Products flavourings include chips and snack products and drink products (both soft and alcoholic).
