AccuDate™ 9700
by TRANSACT®

FOOD SAFETY TERMINALS
FOR FOOD PREP AND
GRAB & GO LABELING
Like many in food service operations, you may be spending significant time and money handwriting food rotation labels. Even with appropriate training, human error can produce labels that are illegible, inconsistent or incorrect. This can lead to food waste, improper hold times and potentially expensive health code citations.

With the continued focus on grab-and-go products for revenue growth, you may also be looking for ways to control the inventory of pre-printed labels containing consumer and transactional information.

The popular AccuDate™ 9700 advances the labeling process by automating the calculation of “Use-By” dates and by printing clear, smudge-proof labels for all your prep and grab-and-go requirements. This helps to improve food safety and reduce waste, while enabling you to focus on more customer-facing activities. Furthermore, your employees will love working with these terminals.

Top reasons AccuDate™ systems are preferred:

- Large, full-color, touch-screen displays – intuitive and easy to navigate
- Spill and splash-resistant design can work anywhere in the kitchen
- TransAct® designs and pre-loads each terminal with your specific menu and shelf-life information
- Updates can be made on-screen, with our PC-based software, and even over a network – allowing for centralized management of your menu data
- Batch printing speeds production of your most common labels
- A dual-language interface adapts to your staff requirements

“Multiple employees have told me this is the best piece of equipment we have ever bought.”
Ray McElveen, Vice President - Galloway Enterprises, Inc.

AccuDate™ 9700 at a Glance

Large, easy-to-read 7.0” LCD with 8.4” touch-screen, for quick navigation and menu edits

Preloaded with YOUR menu and shelf-life information – just plug in and start printing

Small footprint with optional wall bracket, saves valuable counter space

Fast, simple thermal print technology

Spill and splash resistant so you can place it anywhere – worry-free

Supports multiple languages

Optional batch print function to print common/multiple items with one touch

Multi-directional tear bar, perfect when used with wall mount

Internal power supply – no external power brick to get wet during cleanup

Open paper path ensures jams are few and far between

Internet connection via Ethernet for easy menu updates

Quick and easy “drop-in” label loading – no spools to manage or lose

Heavy duty print mechanisms for unmatched reliability

Snap-In/Snap-Out print mechanisms are easy to service
Labels for AccuDate™ – carefully engineered to fit your business.

Labels are another key part of the AccuDate™ System. Labels are available in a variety of standard sizes, and with four different types of adhesives. For Grab & Go, custom sizes and color printing of your logo and other information are available.

Four different types of adhesive.

**Permanent** - Extremely durable, even after dish washing

**Freezer Grade** - Will not come off in the freezer

**Dissolvable** - Dissolve in water in thirty seconds or less

**Removable** - Leaves no residue when removed. Can be reapplied on another surface

**What AccuDate™ users are saying...**

**“We tried one in our busiest stores, loved it. Now we have one in each of our 24 locations!”**

*Dave R, Franchisee*

**“We save 30 minutes daily using your label maker. And we’ve increased our accuracy to 100%!”**

*Susan Stuver, Franchisee*

**“Our teams are very excited about their label terminals. We will not be using our date gun, colored labels or computer expiration time tag file. The 9700 should be a great savings of time and dollars for our company!”**

*Paulette Irwin, Director of Operations for Larry Starkey*

**“It’s a 10! It makes tagging a non-thinking task. Just push the button, pull the tag off and apply to the product. We are extremely satisfied with the ease of operation.”**

*Darren W, Franchisee*
AccuDate™ screens – customized to your exact needs.

TransAct® engineers ensure the AccuDate™ system fits the way you work. We customize the user interface, menu items, shelf-life data and what’s printed on the labels, all to suit your requirements. Here are some examples:

Your menu comes preloaded onto your system, all you need to do is power it up and begin printing!
